March 4, 2020

To Our Valued Customers:

WIKA Canada has chosen to add an additional distributor to the BC market. We would like to provide clarification on this new addition.

WIKA has a strong long-term relationship with CENTRIX Control Solutions. CENTRIX Control Solutions will continue to be our Master Distributor in BC, and any existing customers that conduct WIKA business through CENTRIX Control Solutions should please continue to do so.

The new distribution network was created in an effort to increase the WIKA brand in different markets where CENTRIX is not firmly established.

We thank you for your past support and look forward to continuing to fulfill your requirements through CENTRIX Control Solutions.

If you require any further clarification or wish to discuss further, please feel free to contact me.

Ron J. St.John
