
Safety/Safety Relief Valve Seminars

CENTRIX Control Solutions is pleased to announce the resumption of in-house training sessions, and will host (4) Safety/Safety Relief Valve (maintenance and repair) seminars in Edmonton in March 2023.

INTRODUCTION

The two-day intensive seminars will be presented using videos, powerpoints, as well as hands-on training with actual Safety/Safety Relief Valves and valve cutaways. Participants will benefit most if they have some general knowledge of the operation of these critical safety devices. Our theme will be as always, "Getting the Most of Your Safety Relief Valves through Regular Maintenance and Sound Installation Practices".
